

PROFESSIONALS PROGRAM

Our Professionals Program is designed to effectively address the diverse needs of our clients. Victory has a multi-disciplinary team ready to assist clients understand and cope with the issues specific to their respective profession. This occurs while the client and their team also works on the underlying challenges that will help bring about long-term recovery.

The program is designed to treat a range of professionals, including nurses and other healthcare professionals, first responders, business owners, and executives.

The primary goal of treatment is to educate, support, and provide assistance to clients for a successful transition back to work. Updates on progress and discharge recommendations for continuing care will be provided to the referral source and/or licensing board as needed or as preferred.
